<b>Introduction</b> . . . . .	3
<b>About Author Joanna Cole and Book Summary</b> . . . . .	4
<b>Hands-On Lessons</b> . . . . .	5
❖ Area of the Ocean . . . . . <i>(comparing the area of water to land on earth)</i>	5
❖ Observing Fish . . . . . <i>(observing and drawing live fish)</i>	9
❖ Density of Water . . . . . <i>(discovering the different densities of fresh and salt water and cold and warm water)</i>	10
❖ Tides . . . . . <i>(graphing the tides for one month and comparing this with the moon's phases)</i>	12
❖ Ocean Mural . . . . . <i>(creating a mural depicting areas of the ocean visited in the lessons)</i>	20
❖ Inside a Fish . . . . . <i>(dissecting a fish)</i>	21
❖ Plankton . . . . . <i>(sorting and identifying plankton drawings)</i>	25
❖ Sharks . . . . . <i>(measuring the lengths of sharks)</i>	28
❖ Life in the Depths . . . . . <i>(investigating life in the deepest part of the ocean)</i>	30
❖ Mapping the Ocean Floor . . . . . <i>(simulating mapping the ocean floor)</i>	33
❖ Life on a Reef . . . . . <i>(constructing a pop-up book of a reef)</i>	37
<b>After the Book (Post-reading Activity)</b>	
❖ Ocean Currents . . . . . <i>(learning about causes of ocean currents and their patterns)</i>	38
<b>Unit Assessment</b> . . . . . <i>(open-ended question on becoming an ocean animal)</i>	42
<b>Technology Tips</b> . . . . . <i>(Web sites and other technology extender ideas for this unit)</i>	43
<b>Resources</b> . . . . . <i>(annotated list of related books and materials)</i>	45
<b>Answer Key</b> . . . . .	47

# How Big Is the Ocean? *(cont.)*

## Southern Hemisphere

# Gone Fishing

Ms. Frizzle's students made posters of some of the animals which live in the sea, including comparing how they move. Observe a live fish to see how much you can learn about it.

**Materials:** goldfish, guppy, or other small fish; fish bowl or large jar; a piece of gauze

**Procedure:** Gently place a fish into a bowl or jar. Place the gauze over the bowl so that the fish will not be able to jump out. (Hold the gauze in place with a rubber band.) Watch the fish as it swims for a few minutes.

**Watching a** \_\_\_\_\_  
*(type of fish)*

Compare the way a fish swims with the way a person swims.

---

---

---

Describe what your fish looks like and then make drawings of four different views of it. Add as much detail as you can. Label the parts of the fish. Use arrows to show the ways it moves its fins and body.
