Wool Processing Pictures

Cloze Paragraph

Directions: Choose the word from the basket below that has the right number of letters to complete each blank. Then read the paragraph and answer the question at the bottom.

In *The Courage of Sarah Noble*, Sarah picks wild _____

to add to their evening meals. Strawberries, blackberries, and _____

_____ are all members of the _____ plant family. These kinds of _____ have

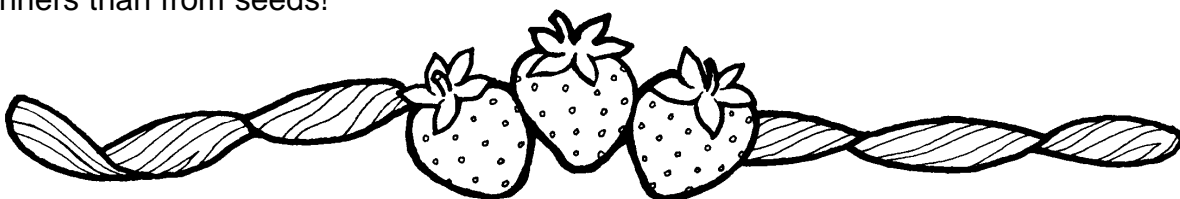

_____ ways to reproduce! They grow fruit which falls to the _____, releases its

_____, and starts a new plant. But they also send out _____.

These look like long stems growing _____ the ground. The runners go down into the

soil and take _____. They start new plants, too. In fact, _____ berry plants begin

from runners than from seeds!

What is so special about berry plants?
