## Wanted Posters

The police use wanted posters to help them locate criminals. You can find these posters in the post office, in the courthouse, and, of course, in the police station.

Using heavy white paper and black markers, create "Wanted" posters for the characters in your novel. Draw a picture of each character, and write an accurate description of that character below the picture.

You should include the following information:

- ♥ age
- ♥ height
- ♥ weight
- ♥ build
- ♥ hair color
- ♥ eye color
- ♥ race and/or nationality
- ♥ hairstyle
- ♥ clothing your character was last seen wearing

For an example of a wanted poster, type the words "wanted poster" into your favorite Internet search engine.

## Design a Bookmark

These days, book publishers often create bookmarks to help promote a particular book. You can design a bookmark for your favorite book. You'll need a strip of heavy paper (4" x 8"). Include the following information on your bookmark:

- ♥ title of the book
- ♥ author
- ♥ publisher
- ♥ price
- ♥ a brief description of the book
- ♥ a picture of the book's cover
- ♥ a quote by you, explaining why people should read this book

Consider punching a hole in the top of your bookmark and threading two pieces of colorful yarn through it, knotting the ends into a tassel.

Once you have completed your bookmark, you may want to laminate it with plastic. Your teacher may be able to do this, or you may take your bookmark to a copy shop for lamination.
