# What's the Sound?

## Literacy Skill

- letter sound recognition

## Student Grouping

- center
- small group
- partners

## Materials

Each group will need the following:

- 1 copy of What's the Sound? Game Board (page 121)
- 2 playing markers
- 1 die

## Directions

Have each group do the following:

1. Player 1: Rolls the die and moves that number forward. (He or she must say the name of the object, the beginning letter, and the beginning letter sound.)
2. Player 2: Rolls the die and moves that number forward. (He or she must say the name of the object, the beginning letter, and the beginning letter sound.)
3. Play continues until one player reaches the top.

## Helpful Hints

- Laminate the game boards for durability, especially when using in a center.
- Using a wooden cube, make a die with only the numbers 1, 2, and 3. This will make the game last longer.
